

A1BG (4B5) Antibody**Subcategory:** Mouse Monoclonal Antibody**Cat. No.:** 252985**Unit:** 0.1 ml**Description:**

A1BG (Alpha-1B-glycoprotein) is a plasma glycoprotein of unknown function. It shows sequence similarity to the variable regions of some immunoglobulin supergene family member proteins. A1BG was recently shown to bind cysteine rich secretory protein 3 (CRISP 3) with high affinity, and it has been suggested that A1BG protects against the potentially toxic effects of CRISP 3 in the circulation.
