## GTF2B (4C1) Antibody

Subcategory: Mouse Monoclonal Antibody Cat. No.: 252946 Unit: 0.1 ml

## **Description:**

GTF2B (General transcription factor TFIIB) is one of the ubiquitous factors required for transcription initiation by RNA polymerase II. GTF2B localizes to the nucleus where it forms a complex (the DAB complex) with transcription factors IID and IIA. Transcription factor IIB serves as a bridge between IID, the factor which initially recognizes the promoter sequence and RNA polymerase II.

Isotype: Mouse IgG1 Applications: WB Species Reactivity: H, Mk Format: Each vial contains 0.1 ml ascitic fluid with 0.03% sodium azide.

Alternate Names: Transcription initiation factor IIB; General transcription factor TFIIB; S300-II; TF2B; TFIIB; GTF2B Accession No.: Q00403

Antigen: Purified recombinant fragment of human GTF2B expressed in E. coli.

Application Notes: WB: 1:200-1:1000;

**Storage:** Store at 4°C for short term use only. Store at -20°C for storage over 1 month. Product is guaranteed 6 months from the date of shipment.

For research use only, not for diagnostic or therapeutic procedures.
